

# **Access Guide – University Hospital Southampton**

The Care and Health Information Exchange (CHIE) is a computer system used by the NHS and Social Care to safely share important information about a patient with those treating them.

You can use CHIE to access GP records, Community, and hospital records (pathology reports, X-ray or scan reports, discharge summaries and clinic letters) for patients registered to GPs in Hampshire and the Isle of Wight.

### **Accessing CHIE from UHS IT Systems**

• UHS staff can access CHIE directly from the Trust's EPR (CHARTS) by selecting the 'Care and Health Information Exchange' option from the Apps menu:

Ioining the dots across health and care

## The Landing Page/Home page

• This is the first page that you will see, the content of which is determined by your job role (Role Based Access Level). An example of a typical Landing Page:
