

Access Guide – IoW NHS Trust

The Care and Health Information Exchange (CHIE) is a computer system used by the NHS and Social Care to safely share important information about a patient with those treating them.

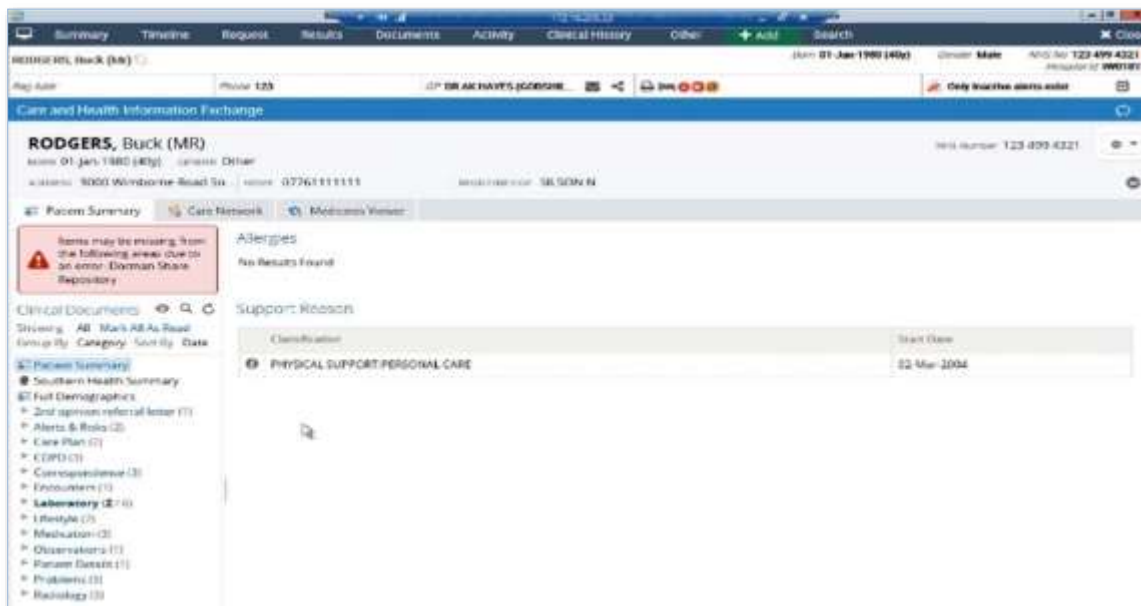

You can use CHIE to access GP records, Community, and hospital records (pathology reports, X-ray or scan reports, discharge summaries and clinic letters) for patients registered to GPs in Hampshire and the Isle of Wight.

Accessing CHIE through CGI eCareLogic

- IoW NHS Trust staff can access CHIE directly from eCareLogic.
- From the patient record, select ‘Other’ and then ‘CHIE’.

- The record of the patient selected in eCareLogic, will then open in CHIE.
- This is the first page that you will see, the content of which is determined by your job role (Role Based Access Level). Example of a typical Clinical Practitioner Landing Page:

Help and Assistance

- Download this and other user guides and webinars from our information sites: [Staff facing website](#) or [Public facing website](#)
If you have any other CHIE specific questions or support needs, please contact the CHIE team info.chie@nhs.net
