

## **Access Guide**

# **Southern Health NHS Foundation Trust**

The Care and Health Information Exchange (CHIE) is a computer system used by the NHS and Social Care to safely share important information about a patient with those treating them. You can use CHIE to access GP records, community records and hospital records (pathology reports, X-ray or scan reports, discharge summaries and clinic letters) for patients registered to practices in Hampshire and the Isle of Wight.

### **Accessing CHIE through RiO:**

• In RiO, open a case record screen (clinical portal).

• In the right hand 'Case Record' menu, click on 'Link: View shared patient data in CHIE'

• The patient's CHIE record will load in a new tab.
